Japan

The most distinctive of all Far Eastern countries, Japan has an original identity that is instantly engaging and delightfully full of enigma and contradiction. Throughout Japan, visitors will find tradition and modernity, simplicity and intricacy, elegance and ostentation. Experience the adrenaline rousing rush of Tokyo in the morning, and be calmed by the timeless beauty of Kyoto in the afternoon. Japanese cuisine is now internationally revered and Tokyo has the most Michelin Star restaurants of any city in the world. In addition to enjoying some exquisite meals, why not add a cooking class and learn how to make some favorite dishes at home.

Best Time to Travel

The best times to visit Japan are the climatically stable seasons of spring (March to May) and autumn (September to November).

Spring is the time when Japan's famous cherry trees burst into bloom, but the blooms last only a week, so timing a visit around this event is difficult.

Autumn is an equally good time to travel, with pleasant temperatures and brilliant autumn colors.

Traveling during either winter or summer is a mixed bag – midwinter (December to February) weather can be cold, while the summer months (June to August) are generally hot and often humid. June is also the month of Japan's brief rainy season, which in some years brings daily downpours and in other years is hardly a rainy season at all.
